24th Annual Conference of the European Society of Criminology Bucharest (Romania)

Asset and Interest Disclosure (AID) systems in EU Member and Candidate States: an assessment

#### Gabriele Baratto<sup>1,2</sup> | Andrea Di Nicola<sup>1,2</sup> | Beatrice Rigon<sup>1</sup>

<sup>1</sup>Centre for Security and Crime Sciences University of Trento & University of Verona

<sup>2</sup> Faculty of Law – University of Trento

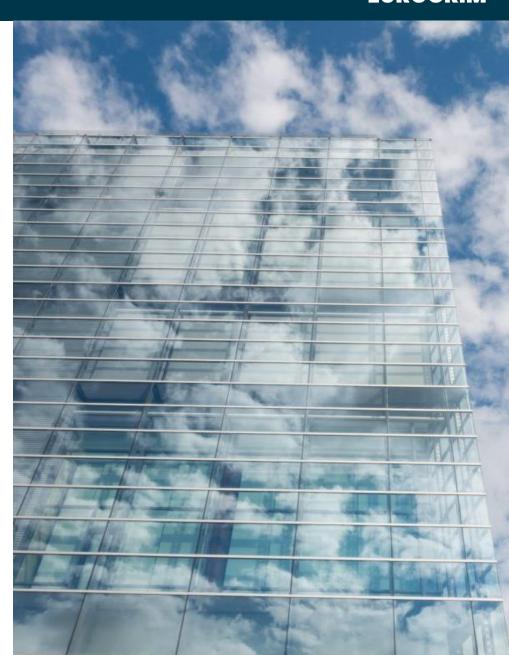

#### Introduction

- Asset and Interest Disclosure (AID) systems are increasingly becoming a multipurpose tool to prevent corruption, promote transparency and overall trust in public officials and the civil service
- Tool to collect information about public officials' assets, incomes, revenues and conflicts of interest (existing or potential)
- Aim to build a culture of integrity, foster public officials' accountability, promote the public's trust and fight corruption in the public sector
- Most countries have adopted some form of AID system, but significant differences exist (i.e. focus and scope of the system, who is required to present a declaration, what is to be declared)
- The topic is not widely or comprehensively explored in the literature, especially at the European level

## **Project qAID**

- The general objective is to analyse the national asset and interest disclosure (AID) systems in EU MSs and CSs in order to make them more effective and efficient.
- The specific objectives are:
  - 1. Develop and promote an integrated approach to measuring progress and assessing the impact of asset and interest disclosure systems in EU MSs and CSs.
  - 2. Promote the implementation of best practices and data exchange on asset and interest disclosure systems in EU MSs and CSs, focusing on automated and digital risk analysis.
  - 3. Enhancing the capacity of anti-corruption institutions in dealing with asset and conflict of interest disclosure in EU MSs and CSs.

## The partners

CSSC (Centre for Security and Crime Sciences) – Universities of Trento-Verona

Coordinator | ITALY

CSD (Centre for the Study of Democracy)

Co-Beneficiary | BULGARIA

ANI (Agenția Națională de Integritate)

Co-Beneficiary | ROMANIA

RAI (Regional Anti-Corruption Initiative)

Co-Beneficiary | BOSNIA AND HERZEGOVINA

ANAC (Agenzia Nazionale Anticorruzione)
Associated Partner | ITALY

# **Objective and methodology**

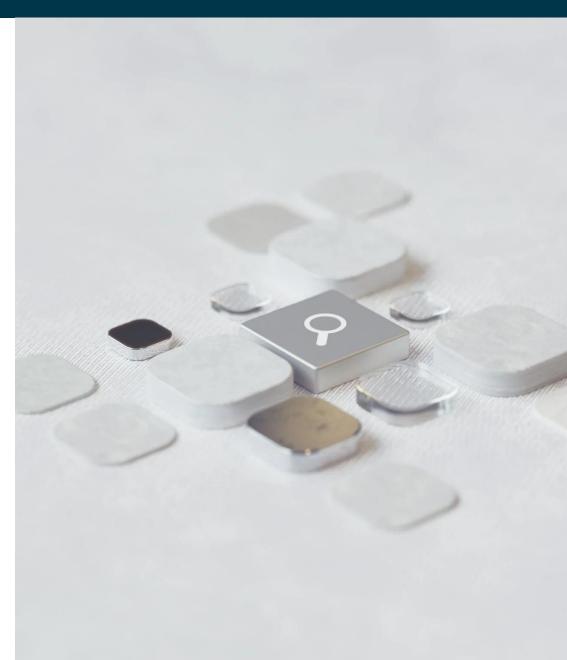

- Online survey
- Extensive desk research
- Pilot test by project's partners
- Administration to anticorruption bodies in each country

#### **Objective**

Mapping of the state of AID systems in MSs and CSs

#### **Focus**

- i. Main features of existing AID systems
- ii. Verification mechanisms of existing AID systems
- iii. Risk-analysis mechanisms (automated or not), with a focus on digitalisation
- iv. Impact assessment methods

#### Who needs to declare - Member States

Politically Exposed Persons (PEPs)

	Declarant	Spouse	Cohabitants	Adult children (in all cases)	Adult children (only if cohabitant)	Non-adult children	Parents	Siblings	Brothers/sisters in law	Other extended family	Friends	Business associates	Other

## **Assessment**

Do methods to assess the impact of AID systems exist?

## **Assessment**

## Data used to assess the impact

AL **	MDA 💆	RO RO
Annual reports and audits, analysis of performance data	<ul> <li>Data provided by ANI</li> <li>Journalistic investigations</li> <li>Notifications received from public institutions, NGOs, natural and legal persons</li> </ul>	<ul> <li>Annual review</li> <li>International mechanisms         based on comprehensive         self-assessment checklists         covering the functioning         and results of the system</li> </ul>

#### **Final considerations**

- Significant differences, especially between MSs and CSs
- CSs impose broader requirements
- In MSs more advanced digitalisation process

#### **Challenges**

- Digitalisation of the systems
- Risk-analysis process
  - How to identify at-risk declarations?
- Assessment of the impact
  - How to measure the impact?
  - When is a system successful?

# Thank you for your attention!
